45 Yearling Red Angus Bulls

10 High-Performance Commercial
Red Angus x Simmental Open Heifers

This sale will be broadcast live on the internet.

DVAuction
Broadcasting Real-Time Auctions

Real time bidding & proxy bidding available.

Welcome ...

Sam, Emily, Nora and Brynn Twedt

Welcome to our First Annual Bull Sale!

We at Twedt Red Angus have decided to switch things up around here. We have decided to no longer do a private treaty silent auction sale. This year we will be joining together with Turtle River Cattle Co. and having a live auction. The sale will be held at our ranch again but done in the format of a video sale and also broadcast online on DVAAuction.com. If you have question regarding this please feel free to give me a call.

This set of bulls is one powerful group that should fit the needs of whatever you are looking for – from performance to calving ease to maternal to incredible dispositions. The bulls were weaned on Sept. 21 with no creep and have been on a growing diet of corn silage, alfalfa, corn and dry distillers with Vigortone mineral to help promote longevity and good-footed bulls.

Cattle numbers are at all time lows and feeder calf prices are hitting record highs. Now is the time to be in the cattle business. Have confidence in Twedt Red Angus bulls knowing that we are using the best genetics available through AI, and now through ET work.

Customer service is very important to us. Know that we will serve you with the utmost honesty and integrity. If you have any questions, please call or stop in anytime!

Twedt Red Angus

Welcome ...

Welcome to our Annual Production Sale.

We would like to thank you for taking the time to look over our catalog. This year we are having our sale with our good friends, Twedt Red Angus, and would like to thank them for letting us be a part of this sale.

This set of bulls has power and calving easy. We feel there are bulls in here for everyone. They are thick, deep and long.

We at Turtle River Cattle Co. A.I. to some of the best bulls that we can find. We really focus on deep, long, great-uddered cows that get the job done! We have been raising Red Angus for over 20 years and we run right around 80 mama cows.

This year the sale will be broadcasted on DVAuction.com and all the bulls will have videos. The videos can be viewed on DVAuction.com.

Please feel free to give us a call anytime on the bulls.

Thanks,

Turtle River Cattle Co.

313 will make a very balanced heifer bull. He is thick and has a very nice hind quarter to him. He will calve easy and still give you the growth. We purchased his dam from Nordland Stock Farm a few years back as an open heifer. She is doing very well for us. Her first bull calf sold to Dick Harding of McHenry last year and he is very happy with him.

314 is a "sleep all night" heifer bull. Born at 61 lbs. he still weaned off at 621 lbs. He is out of the famous Messmer Packer S008 as well. He will do a great job for someone on heifers.

Brynn Leigh Twedt, born 12-23-13

Last, but certainly not least, is this High Yield bull. The youngest calf in the sale but boy is he a dandy. A stylish, deep-sided calf with loads of power. This cow's calf last year was one of the high sellers to Roger Ouse.

Wow! Where do we start on one of the best bulls we have to offer in this year's sale? He truly is a stud with his deep gut and big butt. He really has it all and, on top of it all, he can be used on heifers! He is a outcross to most cow herds! Power and style in this bull. His dam is a great cow with a good udder. Come see him for your self!

Heifer bull alert! This ET calf is sired by TR Julian LT 151 (a direct son of B571). His dam SRR Joan 323-989 and granddam Larson Joan 898-213 both tot large MPPAs of 107.9 and 107.1, respectively. Consigned by Uriell Red Angus.

Commercial Heifers 47-56

10 High-Performance Commercial Red Angus x Simmental Open Heifers

These heifers were handpicked out of a 130 heifers from my dad, Gerald Twedt's herd. They are Simmental-Red Angus cross heifers. The Simmental bulls used are mostly Kjølgaard Simmental bulls and the Red Angus are Twedt Red Angus bulls. This is one awesome pen of heifers. They will be sold in two lots of five. The heifers are Bangs vaccinated and guaranteed open.

The 120 open heifers that were left over were purchased by Jason Topp of Grace City, ND, and will be Aled and cleaned up by Twedt Red Angus bulls. These heifers will be for sale this fall. For more information Contact Twedt Red Angus or Jason Topp at (701) 307-0132.

Ranchers' Guide to EPDs

For more information on EPDs, visit redangus.org.

- GED**.....**Calving Ease Direct** – predicts the probability of calves being born unassisted out of 2-year-old heifers.
- BW**.....**Birth Weight** – predicts the difference, in pounds, for birth weight, and is also used in the calculation of Red Angus' Calving Ease Direct (CED) EPD.
- WW**.....**Weaning Weight** – predicts the difference, in pounds, for weaning weight (adjusted to age of dam and a standard 205 days of age).
- YW**.....**Yearling Weight** – predicts the expected difference, in pounds, for yearling weight (adjusted to a standard 365 days of age).
- Milk**.....**Milk** – predicts the difference in maternal production of an individual animal's daughters as expressed by the weaning weight of their calves.
- TM**.....**Total Maternal** – predicts the rancher's actual observation of weaning weights of calves raised by an animal's daughters. TM EPD = Milk EPD + 1/2 (WW EPD)
- ME**.....**Maintenance Energy** – predicts a bull's daughters that will require less feed to maintain her body weight and condition; thus increasing profitability.
- HPG**.....**Heifer Pregnancy** – predicts the probability of heifers conceiving to calve at two years of age.
- GEM**.....**Calving Ease Maternal** – predicts the probability of a given animal's daughters calving unassisted at two years of age.
- STAY**.....**Stayability** – predicts the probability that a bull's daughters will remain in the herd until at least six years of age.
- MARB**.....**Marbling Score** – predicts differences for carcass marbling score as expressed in marbling score units. Higher marbling scores are positively correlated with higher carcass quality grades.
- YG**.....**Yield Grade** – predicts differences in USDA Yield Grade score, and is expressed in USDA Yield Grade units.
- CW**.....**Carcass Weight** – predicts differences in hot carcass weight and is expressed in pounds.
- REA**.....**Rib Eye Area** – predicts differences of carcass Rib Eye Area between the 12th and 13th rib, expressed in inches.
- FAT**.....**12th Rib Fat Thickness** – predicts differences for carcass fat depth over the 12th rib, as expressed in inches.
