Broadcasting Real-Time Auctions

Real time bidding & proxy bidding available.

Sam, Emily, Nora and Brynn Twedt

Cattlemen,

Welcome to our second annual production sale! With cattle numbers soaring to all-time highs, there has never been a more exciting time to be in the cattle business. This year we will be joining up with good friends and neighbors, Ryan and Meghan Ressler to offer you an outstanding set of Red Angus and Angus genetics.

The bulls are an impressive group again this year. They offer performance, calving ease and incredible dispositions, and are backed by some the breed's leading A.I. sires. These bulls were weaned on Sept. 23 without creep feed. They have been on a growing diet of corn silage, grass hay, corn and dry distillers with a Vigortone mineral. These bulls are not pushed to help promote longevity in both condition and feet.

Due to the harsh conditions of last year's winter, I believe my birth weights were higher. Please refer to the Calving Ease Direct (CED) and Birth Weight (BW) EPDs to help assist you in looking for calving-ease bulls.

Once again the sale will be broadcast on DVAuction. If you are looking to bid on DVAuction, please register ahead of time and make sure you are approved to bid. We also will have people available sale day if you prefer to be on the phone instead.

We would like to thank all of you for your interest and past business! Know that we will serve you with the utmost honesty and integrity. If you have any questions, please call or stop in anytime! We hope to see you Feb. 3 at the ranch!

Thank you for making plans to attend our first annual Angus bull sale.

We are third-generation ranchers in the heart of North Dakota. We use proven family practices and meticulous management. We have carefully built our herd with traits such as reproductive efficiency, docility and performance, all in moderately framed cattle.

We were lucky enough to come by an opportunity early last year to purchase some high-quality cows from Mogck Angus and Sons out of South Dakota. All of these cows produced sale bulls and high-end replacement heifers for the last several years. We have been blessed to implement them into our herd.

This set of bulls is the most uniform group of bulls that I have raised. Over half of them are out of some the breed-leading A.I. sires. These bulls have been fed a ration of alfalfa, corn silage, corn and dry distillers. The bulls were fed to grow and mature but not pushed too hard to help promote longevity of the bull. The results allow us to share our success with you. You'll be pleased with your investment.

At weaning, the bull calves and sale heifers received Vista Once SQ, Vision 7 Somnus, vaccinations and pour-on dewormer. Health papers will be furnished sale date for interstate shipment.

In this catalog you will find bulls with 100-lb. birth weights and a few pounds more. These are 100% accurate weights. They are not taken with a foot tape or lifted up with a bouncing scale. Each calf born on our facility is weighed on an electric scale. These weights are as accurate as you can get. We feel that a cow should have the capability of having a 100-lb. calf with no assistance. These bulls are in the sale because they were born without assistance – they have something to offer you.

The open heifers in this offering are coming from the first cut of commercial heifers. It was very hard to let some of these girls go, knowing what their dams have done and the phenomenal potential they have.

Whether you are a returning customer or a new friend, we appreciate your support for the betterment of our industry. Please call anytime with questions. We thank you for your business.

SALE ORDER/SUPPLEMENT SHEET

A sale order sheet will be available sale day, along with a supplement sheet with scrotal measurements and adjusted yearling weights.

LUNCH: A complimentary sale day lunch will be served.

VIEW CATALOG AND VIDEOS ONLINE:

twedtredangus.com, ressellerranch.com and dvauction.com

INSURANCE:

Bulls that are purchased sale day become the buyers' responsibility as soon as they are sold. We recommend insuring your bulls on sale day if they are staying at the ranch.

TERMS AND CONDITIONS

Terms of the sale are cash. Phone or mail bids are welcome and may be given to the auctioneer or any of the sale representatives. Live bidding will be available online at www.dvauction.com. Please review the below information and register early so you are approved as a bidder in plenty of time before the sale. Each animal will be sold to the highest bidder. Any bidding disputes will be settled by the auctioneer. Any person attending the sale does so at his/her own risk. Neither the owners, nor any person connected with this sale assumes any liability, legal or otherwise. Cattle will sell according to the terms and conditions suggested by the Red Angus Association of America and/or American Angus Association.

GUARANTEE

Ressler Angus Ranch/Twedt Red Angus guarantees all bulls selling for \$2,550 or more against breeding injury for the first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bull(s). If a replacement bull is available, he will be provided, or of buyer prefers, credit toward one bull will be given in the following year's sale, less salvage value of the injured bull. Under no circumstance will Ressler Angus Ranch/Twedt Red Angus be liable for more than the net purchase price of any bull. Please notify Ressler Angus Ranch/Twedt Red Angus as soon as possible, should such an injury occur, to make your claim and arrange your return of the injured bull. This guarantee ends the end of the purchase year.

Should the bull die however, he will not be covered by this guarantee. Ressler Angus Ranch/Twedt Red Angus recommends the purchase of the livestock mortality insurance to mitigate this type of loss.

FEEDING AND DELIVERY

Bulls are kept free of charge until April 1. Free delivery is offered in North Dakota or up to 300 miles on bulls (delivery beyond at cost). We will assist in any way possible to get your bull to you.

Leave delivery instructions at settlement time. Delivery on heifers is at buyer's cost.

BREEDING GUARANTEE

All bulls are guaranteed breeders and guaranteed healthy on sale day. All bulls will be semen tested before delivery. Scrotal measurements will be available sale day. Bulls are guaranteed breeders their first breeding season. Pink Eye and Foot Rot shots are available on request at the time they are semen tested.

SEMEN INTEREST:

Ressler Angus Ranch and Twedt Red Angus will retain a one-third semen interest in all bulls sold.

VIEW AND BID ONLINE:

You are welcome to view the bulls at Ressler Angus Ranch in Cooperstown, N.D., any time prior to the sale date. On Monday, February 2, the bulls will be moved to the sale location and sorted into pens for viewing on the day of the sale.

All Twedt Red Angus bulls and heifers will be available for viewing at the sale location and sorted into pens for viewing on the day of the sale.

Live bidding will be available online at www.dvauction.com. Please review the information on **Page 9** and **register early so you are approved as a bidder in plenty of time before the sale.**

406 is a powerful Oly son out of a first-calf heifer. He is larger framed with lots of depth of rib. His Outrider mother had a perfect udder and really rose to the top of the first-calf heifers with this bull calf. Don't let his lighter color deter you from this powerful bull.

416 is the first of the Saga sons in the catalog. These Saga sons have really caused a stir of excitement around the country and now I know why. They come out small and really grow. They got a look to them that makes them stand out as well. This guy is out of a cow that does it year in and year out. She always brings one to the top. With a -3.4 BW EPD and a 73-lb. BW, this bull will work great on heifers.

461 is the other Iron Man son in the sale and boy, is he a dandy. One of the top WW bulls in the sale and he was raised by a 12-year-old cow that never misses. She has a weaning ratio of 108 on 9 calves. One of foundation cows of my herd. She has left daughters in the herd that are also leaving a mark. Her son last year was also one of the high WW bulls that year. She doesn't miss. This guy will add pounds to your next calf crop weaning off at 776 lbs., ratioing a 117 with no creep. Note he is scurred.

462 is probably my favorite High Yield bull this year. High Yield raised the top seller last year and just might do it again with this bull right here. He is long, thick and easy fleshing. He was a stand-out all summer. His dam is a cow we purchased from Nordland Stock Farms and she is turning into one heck of a cow for us. Her heifer last year sold to Prairie Pride Red Angus in the North Dakota Red Select Sale. 462 weaned off at 766 lbs., ratioing a 115 with no creep!

464 is another powerful High Yield calf that fits right up at the top with 462. 464 is the highest weaning weight bull in the offering, weaning off at 822 lbs. and ratioing a 124! This bull's dam, 617, has been an outstanding cow for us. In fact 617's dam is 461's dam. There is power in this cow family. This bull will leave a mark in anyone's herd. He ranks in the top 5% for WW and top 9% for YW and CW.

The rest of the bulls are all High Yield sons. High Yield decided he was going to give a pile of sons on his last year of breeding for us. He had probably 20-plus bulls out of High Yield this last year and at the most 10 heifers. Any of these High Yield bulls will do a great job for you. They all should calve easy and grow and have tremendous carcass traits.

So those of you that have read my catalog the last few years know about this cow and know how good she is. Last year she had the third high-selling bull to Long Brothers from Bowdon, ND. Anyway this cow is unable to be registered but I still use her because she is that good. Don't overlook this guy.

A very good Ambush son with good depth of rib and has a nice hind quarter to him. He is out of my clean-up bull and NOT a second rate bull at that. Lot 53's dam is a Grid Maker daughter that has consistently done a great job every year. She has now pulled off a weaning ratio of 7 calves @ 102. This bull also ranked second best for daily gain at 4.79 lbs. per day.

Lot 67 is a Regis son out of a first calf War Party heifer we were going to keep for ourselves but are now offering to you. He has a CED EPD of +6 and a BW EPD of +1.5. This is a very stylishly made and heavily muscled bull, and would make an excellent herd sire for anyone. As of 1/2/15 he weighed in at 1,700 lbs.

Lot 67

Commercial Heifers

Commercial Red Angus Heifers

68 20 Commercial Red Angus x Simmental Open Heifers

These heifers were handpicked out of a 120 heifers from my dad, Gerald Twedt's herd. They are Simmental-Red Angus cross heifers. The Simmental bulls used are mostly Kjelgaard Simmental bulls and the Red Angus are Twedt Red Angus bulls. This is one awesome pen of heifers. The heifers are Bangs vaccinated and guaranteed open.

The 100 open heifers that were left over were purchased by Jason Topp of Grace City, ND, and will be Aled and cleaned up by Twedt Red Angus bulls. These heifers will be for sale this fall. For more information Contact Twedt Red Angus or Jason Topp at (701) 307-0132.

Commercial Angus Heifers

69 20 Commercial Purebred Angus Open Heifers

This complete set of stylish heifers is from the top of our commercial herd. We kept very few replacements out of the commercial herd this year. Putting these heifers in the sale was a tough decision to make because we have seen what their dams have produced, a consistent type year after year. They yield heifers that are fertile and steers that weigh up. These heifers are out of moderately framed cows with quality udders, breeding longevity, and phenotypically stand out. This group of heifers had an average weaning weight of 550 lbs. on October 1st. In the beginning of January, they averaged 760 lbs. They were fed corn screenings, silage, hay, distillers and a complete mineral package. This custom ration allowed for these heifers to slowly mature in order to insure longevity and more milk capacity. The genetics behind these heifers will allow them produce growing type of calves and outstanding replacements.

This complete set of stylish Mentor, New Standard and Spickler Baldrige Rock Daughters are from the top of our commercial herd.
