Welcome

Cattlemen,

We want to welcome you to our 12th annual production sale. We are excited to show you our offering this year as we feel it's the deepest and best set yet. The quality in the bulls runs all the way to the end. We do not put bulls on the sale that we don't think will help improve your herd.

This year we used some different genetics in order to offer you some new and fresh genetics. We are constantly looking for ways to improve our cow herd. Some of the new genetics in the sale are Canadian genetics. The Canadian EPDs don't translate to the US as accurately as we feel they should. We encourage you to look at the bulls for what they are phenotypically and their actual data when basing your decisions. We are very impressed with foot structure these Canadians genetics have which was one of the main reasons for using them.

We run a very strict cow herd and cull extensively each year. Cows are culled for many reasons such as feet, disposition, udders, and fertility. All open cows are sold and not rolled into different calving seasons.

Customer satisfaction is very important to us. We want to hear how the bulls are working or not working. Your feedback helps us improve and serve you better. We understand that not everyone is looking for the same types of bulls and sale day goes by super fast. It is just not possible for us to visit with everyone. We welcome you to stop out prior to the sale and go through the bulls so we can discuss your goals for your ranch and cow herd and help you make your selection for your program. If you are unable to make it to the ranch, please give us a call ahead of the sale and we would be glad to discuss the offering with you.

Sam, Emily, Nora, Brynn, Wyatt & Eden Twedt

We want to thank all of our past customers! We take the responsibility of raising seed stock very seriously because we know that the genetics you purchase from us will affect your ranches profitability in the future. Thank you for trusting us and we hope you continue to trust us in the future.

We hope to see you February 1st but if you can't make it please join us on DVAuction!

DVAuction Broadcasting Real-Time Auctions

Watch and Bid Online at DVAuction.com

Can't make the sale?

We are pleased to bring you real-time Internet bidding and a live broadcast of this sale through DVAuction. To watch or bid online, simply complete the following steps:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Creat New Account" tab
- Enter a user name, password and your contact information.
- Complete the Banking Information. (If you are only interested in viewing you can skip this section)
- Select your Time Zone, Accept the Terms and Conditions and click "Create Account"
- Complete the process by answering a few questions, selecting your subscription choices
- Click on "Apply for Bidding" in the upper left corner of your screen to select the sales you wish to bid on
- Be sure to include a personal contact at your bank, we will contact them in order to get a credit reference.
- If you would prefer to be approved using your credit card, call (402) 316-5460.
- Please be sure to apply for bidding at least a day in advance of the sale-every effort will be made to process your application in a timely manner.

DVAuction will contact you once you have been approved to bid. We do not provide buyer numbers until you have purchased a lot in the sale, and that number is only usable for that auction. After the sale contact the sale owner or manager to make arrangements for payment and delivery of your online purchases.

Please Note: High speed Internet access (DSL, T-1, or Broadband) is required to be able to bid successfully during the sale. If you have any questions, please contact DVAuction at (402) 316-5460 or email support@dvauction.com.

Proxy Bidding: If you can't access a computer during the sale, you can now place a "proxy bid" through DVAuction. Simply follow the instructions listed above, and as the sale date nears there will be a "Proxy Bidding" link under the sale listing on the main page of DVAuction. You can then place the maximum amount that you'd like to bid, and our system will represent your bid just as if you were there.

Annual Bull Sale

Tuesday, February 1, 2022

1 p.m. CST • At the Twedt Ranch • McHenry, ND
2061 95th Ave NE • McHenry, ND 58464

Directions: 9 miles N. of McHenry, 2 miles E. and 1/2 mile N.

Selling:

- 65 Red Angus Yearling Bulls
- 8 2-Year-Old Red Angus Bulls
- 20 Registered Bred Red Angus Heifers

FEEDING AND DELIVERY

Bulls are kept free of charge until April 1. Free delivery is offered in North Dakota or up to 500 miles on bulls (delivery beyond at cost). We will assist in any way possible to get your bull to you.

Bred and open heifers are buyer's responsibility to be picked up. We will assist you in any way we can to get the heifers to your place.

VOLUME DISCOUNTS

Volume discounts apply only to bulls.
 3% off on 3 Bulls
 4% off on 4 Bulls
 5% off on 5 Bulls or more
 10% off on 10 bulls

TERMS AND CONDITIONS

Terms of the sale are cash. Phone or mail bids are welcome and may be given to the auctioneer or any of the sale representatives. Live bidding will be available online at www.dvauction.com. Please review the below information and register early so you are approved as a bidder in plenty of time before the sale. Each animal will be sold to the highest bidder. Any bidding disputes will be settled by the auctioneer. Any person attending the sale does so at his/her own risk. Neither the owners, no any person connected with this sale assumes any liability, legal or otherwise. Cattle will sell according to the terms and conditions suggested by the Red Angus Association of America.

HERD HEALTH

Town and Country Vet Clinic, New Rockford, ND.....701-947-2000

GUARANTEE

All bulls in this sale are guaranteed to pass a breeding soundness and health examination. In the event that a bull does not pass or is injured while at Twedt Red Angus, a bull of equal value will be given or your money back. Once the bull leaves Twedt Red Angus, he is the buyer's responsibility. We encourage buyers to purchase morality and loss-of-use insurance.

SEMEN INTEREST:

Twedt Red Angus will retain a one-third semen interest in all bulls sold.

CATTLE VIEWING:

You are welcome to view the bulls and heifers prior to the sale at Twedt Red Angus Ranch.

All Twedt Red Angus bulls and heifers will be available for viewing at the sale location and sorted into pens for viewing on the day of the sale.

VIEW AND BID ONLINE:

Live bidding will be available online at www.dvauction.com. Please review the information on the **inside front cover** and **register early so you are approved as a bidder in plenty of time before the sale.**

Top Dollar Angus Feeder Calf Program

Promote Your Verified Genetic Investment

Top Dollar Angus is the industry leader in third-party genetic verification and marketing assistance for superior Angus and Red Angus-based feeder cattle. Our program stamps a unique identity on the 'best of the best' by verifying and then showcasing their genetic merit. The Top Dollar Angus team works directly with a large number of feedyards and buyers to provide them with documented superior feeder cattle, coupled with genetic risk mitigation and the precision understanding they need to pursue your cattle with absolute confidence.

Top Dollar Angus enables cow-calf producers to benefit from the genetic value already built into their herds. Producers that invest in high-end genetics, as well as strong health and nutrition programs, need a means of positively differentiating their calves from average cattle. Top Dollar Angus does that. Industry demand is strong for genetically superior feeder calves with the right supporting documentation. Don't make buyers guess, let them know by putting the Top Dollar Angus badge of honor on your premium genetic investment.

How it Works:

Our program begins with a FREE genetic evaluation based on the current/past herd sires used in your program. We evaluate the sires used in your herd based on their growth and carcass merit characteristics. A herd that qualifies for Top Dollar Angus has cattle that are at least 50% Angus or Red Angus and also ranks in the top 25% of its respective breed for growth and carcass merit.

Once qualified, our team provides boots on the ground to share this valuable information with buyers looking for high quality cattle that will go on feed and perform. Our team has experience coast to coast and works directly in all channels (video, local auction, direct and internet). Plus, we have the resources to provide a very fast turn-around.

What our Customers Say:

"Top Dollar Angus is a program that benefits all levels of the industry. The seedstock producer is rewarded for providing superior genetics to the commercial cattleman, who in turn supplies the feeder with efficient cattle that will produce top-end carcasses. As Top Dollar Angus continues to raise their qualifying standard, these cattlemen will have to up their game to purchase the genetics that will fit the program. These cattlemen will see a return on investment when offering reputation feeders at market time."

RED ANGUS MARKETING PROGRAMS

How to Enroll in FCCP and AA

1. The producer contacts the Red Angus Association of America at **940-477-4593** and answers a short supplier enrollment questionnaire over the phone. RAAA staff will ask general management, animal identification and breeding questions. If needed, the producer may be asked to supply additional documentation on breeding such as semen receipt, lease agreements or information on purchased females.
2. After all documentation is recorded, staff will ship the tags directly to the producer who must tag the calves before they leave the ranch of origin – birth, branding, preconditioning, weaning or before loading on the semi.
3. The producer will receive a customer enrollment agreement to fill out and return to RAAA with a copy of their calving records.
4. Staff will issue the USDA-approved Certificate of Compliance upon receiving the customer enrollment agreement and calving record.

1212 has been a phenotypic stand out since birth. He has been the man amongst boys. He is super thick and carries extra length of body. 1212 is a Seneca son out of the great 107W cow. A cow that truly has been a herd changer for us. She has put so many daughters and daughters of daughters now back into our program. This guy has the proven and consistent genetics to be a real herd bull.

1158 is super dark cherry red and has been one of my favorite bulls all year. He is out of our proven herd sire Driven who has been outstanding for us. His dam is a beautiful Just Right daughter that goes back to the 107W donor. She has outstanding feet and a perfect udder. He is a younger March son that keeps right up with the Februarys. This bull is a must-see to really appreciate his thickness and depth of rib. He has the herd bull look. He will move a program in the right direction. I wouldn't be afraid to try him on some heifers.

1135 is the first of a very strong sire group of Relentless sons. 1135 is a sure-shot heifer bull with the growth to go along with it. He is out of a beautiful, moderate framed, Cowboy Kind daughter out of the great 158W donor. This bull has the genetic make-up to replace his sire. True herd bull potential.

STRA Relentless

Bieber Laura 158W

Lot 4

181 is another outstanding Relentless son who really checks all the boxes. Another excellent heifer bull option. He is out of a beautiful Supreme daughter with great feet and a great udder. She did an outstanding job her first year. Low birth and big-time growth on this guy. Another one with herd bull potential.

Lot 5

149 is another Relentless that really sets the bar high. He doesn't have as much growth as the previous two but truly a calving ease specialist. He is a true sleep-all-night heifer bull. He has the herd bull look and catches your eye when you're walking through the bulls. He is out of a beautiful Seneca daughter that goes back to the great Belga 345x donor. I don't know which of these three Relentless sons are the best. I will let you decide that. We plan to sample one of them, we just aren't sure which one has the most potential to replace his sire.

136 is one of the few Copenhagen 3y sons in the sale. We used Copenhagen to make some outstanding females and that's just what he did. We got a lot of heifers by him and not a lot of bulls but that's just what we wanted. Copenhagen 3y daughters topped the U2 dispersion a few years ago and for good reason. He is a son of the great 158w – the dam of Hard Drive, Deep End and Gladiator. Combining 158w and Copenhagen 3y we feel will create some awesome females. We are really excited about this son and plan to sample him this spring.

1121 is the first of the Township sons to sell. We purchased the US semen rights on Township with Rhodes Red Angus after we were unsuccessful in purchasing the \$115,000 sire from U2 in 2020. 1121 is a son that we feel is pretty special. Super dark red with lots of look to him. His dam is a dark cherry red daughter of our great Rambo 71P cow who was the first cow we ever flushed. 1121 is awesome footed and will improve foot quality in your herd.

RED U2 Township 17G

Lot 7 on grass

Red Angus Yearling Bulls

Lot 8

1160 has been one of my absolute favorites all summer. He is the number one weaning weight bull and still has the look of herd bull. He is dark red and out of a beautiful Federalist Cherabel daughter with super dark black hooves and a beautiful udder. He has the same cow family as Relentless. This bull is going to add the pounds but will still give some awesome heifers to put back in the herd. He has the look of a herd bull.

Lot 8 last summer

1113 is another outstanding Relentless son out of the \$25,000 U2 Rainbow 417c. This was an ET calf that had a tough start to life because I don't think his recip mom had much milk. He looked pretty tough when he went to grass but he figured out how to steal and really took off. This is why his weaning weight is a little lighter. He is the only bull out of the flush but there were 5 outstanding heifer calves in the flush. We sold one on the Red Select sale for \$8,500 to Jake Feddes in Montana. Herd bull potential in this guy!

1100 is a black bull out of one of the most popular bulls in the Angus Breed, SAV Rainfall and our 158w donor cow. We did this to bring in some different genetics into our program. We added an outstanding set of full sibling heifer calves to our replacement pen. This bull is a Black/Red Carrier so used on red cows you will get 50% red calves. Used on black Angus cows you will get 100% black calves if those cows don't have red gene. We feel this bulls BW came from the recipient cow and this guy will calve easy.

196 is another low birth Township son that we feel would work on heifers.

PROFIT. REPEAT.

Generate repeated profits with the industry's most-favored female.

Independent research from a decade of data collection showed Red Angus-sired heifers commanded \$66/head more than females of other breed types. That's nearly \$5,300 on a single load of replacement heifers to boost profits on your operation.

Visit RedAngus.org for details on the industry's most-favored female.

RED ANGUS
RANCH TESTED. RANCHER TRUSTED.

RREDS BLUEPRINT H001

RREDS Blue Print is the \$55,000 bull we purchased from Rhodes Red Angus last winter. These will be the first calves out of him this spring. We are truly excited about this bull and what he will do for our program. Co-owned with Nordlund Stock Farm and Cutting Edge Ranch. Semen available through Pure Beef Genetics.

TAC DRIFTER H10

TAC DRIFTER H10 is a \$19,000 son we purchased this spring from TA Cattle. We purchased him for our heifers. We feel he is going to be a true calving-ease and female-sire. We are excited to see his first calves. Co-owned with Rhodes Red Angus.

STRA ADMIRAL 0150

STRA ADMIRAL 0150 was our \$27,500 high seller to Kenner Simmentals. We sampled this bull heavily this last spring and we are excited to see the calves out of him. He is a true outlier for calving ease and growth. Semen available through Kenner Simmentals.

STRA RELENTLESS

STRA Relentless sold to ST Genetics in 2019. He continues to be a true calving-ease sire. This is a bull we take great pride in and will leave a mark on our program for years to come with his daughters. Semen available through ST Genetics.

Red Angus Guide to EPDS and Indexes

ProS... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB..... HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW..... Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW..... Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW..... Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI..... Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK..... Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

HPG..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM..... Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB..... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG..... Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW..... Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA..... Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT..... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)
