# Welcome

Cattlemen,

We want to welcome you to our 14th Annual Production sale. We are excited to show you our offering this year as we feel it is one of our best sets yet. The quality in this set of bulls runs all the way to the end. We pride ourselves in only putting bulls in this sale that we feel will have a genetic impact on your program.

What an exciting time to be in the cattle business. We are enjoying many blessings, from record-setting cattle feeder prices this fall, many people getting abundant rainfall this summer, to a mild winter where many cattle are still out grazing.

Once again, we have gone the extra mile to make sure that the bulls have had as much genetic testing done as possible to help you make your selection. All the bulls have been parent verified, have genomic-enhanced EPDs, have been carcass ultra-sounded and have all the performance data available.

Customer satisfaction is very important to us. We want to hear how the bulls are working or not working for you. Your feedback helps us improve and serve you better. We understand that not everyone is looking for the same types of bulls. So please feel free to give us a call or stop out ahead of the sale and we can discuss what your needs are and what you're specifically look for. We want to thank all of our past customers! We take the responsibility of raising seedstock very seriously because we know that the genetics you purchase from us will affect your ranch's profitability in the future. Thank you for trusting us and we hope you continue to trust us in the future.

Sam, Emily, Nora, Brynn, Wyatt & Eden Twedt

Last, but certainly not least, we want to thank God for giving us this opportunity to do what we love and enjoy His beautiful creation.

We hope to see you February 6th!

*Sam Twedt*

Kirby Goettsch, Farm & Ranch Guide.....(605) 380-3939  
Scott Ressler, ND Stockmen's Association .....(701) 391-7310  
Rachael Oliver, Red Angus Association of America.....(406) 480-1569  
Logan Hoffman, DV Auction .....(701) 388-2618

### VIEW CATALOG AND VIDEOS ONLINE:

[twedtredangus.com](http://twedtredangus.com) and [dvauction.com](http://dvauction.com)

### INSURANCE:

Dakota Ag Insurance will be available to assist you with mortality and infertility insurance.  
Dakota Ag Insurance.....Office: (605-990-5355, Cell: (605) 999-4475

### FEEDING AND DELIVERY

Bulls are kept free of charge until April 1. Free delivery is offered in North Dakota or up to 500 miles on bulls (delivery beyond at cost). We will assist in any way possible to get your bull to you.

Bred and open heifers are buyer's responsibility to be picked up. We will assist you in any way we can to get the heifers to your place.

### VOLUME DISCOUNTS

Volume discounts apply only to bulls.  
3% off on 3 Bulls  
4% off on 4 Bulls  
5% off on 5 Bulls or more  
10% off on 10 bulls

### TERMS AND CONDITIONS

Terms of the sale are cash. Phone or mail bids are welcome and may be given to the auctioneer or any of the sale representatives. Live bidding will be available online at [www.dvauction.com](http://www.dvauction.com). Please review the below information and register early so you are approved as a bidder in plenty of time before the sale. Each animal will be sold to the highest bidder. Any bidding disputes will be settled by the auctioneer. Any person attending the sale does so at his/her own risk. Neither the owners, no any person connected with this sale assumes any liability, legal or otherwise. Cattle will sell according to the terms and conditions suggested by the Red Angus Association of America.

### HERD HEALTH

Town and Country Vet Clinic, New Rockford, ND .....701-947-2000

### GUARANTEE

All bulls in this sale are guaranteed to pass a breeding soundness and health examination. In the event that a bull does not pass or is injured while at Twedt Red Angus, a bull of equal value will be given or your money back. Once the bull leaves Twedt Red Angus, he is the buyer's responsibility. We encourage buyers to purchase morality and loss-of-use insurance.

### SEMEN INTEREST:

Twedt Red Angus will retain a one-third semen interest in all bulls sold.

### CATTLE VIEWING:

You are welcome to view the bulls and heifers prior to the sale at Twedt Red Angus Ranch.

All Twedt Red Angus bulls and heifers will be available for viewing at the sale location and sorted into pens for viewing on the day of the sale.

### VIEW AND BID ONLINE:

Live bidding will be available online at [www.dvauction.com](http://www.dvauction.com). Please review the information on the **inside front cover** and **register early so you are approved as a bidder in plenty of time before the sale.**

# RED ANGUS MARKETING PROGRAMS

## How to Enroll in FCCP and AA

1. Contact the Red Angus value-added department at **940-477-4593** and complete a short supplier enrollment questionnaire over the phone. RAAA staff will ask general management, animal identification and breeding questions. If needed, the producer may be asked to supply additional documentation on breeding such as semen receipt, lease agreements or information on purchased females.
2. After all documentation is recorded, staff will ship the tags directly to the producer who must tag the calves before they leave the ranch of origin – birth, branding, preconditioning, weaning or before loading on the semi.
3. The producer will receive a customer enrollment agreement to fill out and return to RAAA with a copy of their calving records.
4. Staff will issue the USDA-approved Certificate of Compliance upon receiving the customer enrollment agreement and calving record.

**FCCP or Allied Access Tags**  
\$1.30 each

**EID Only (FCCP or AA)**  
\$2.20 each

**EID Combo Sets**  
\$3.30 each

### FEEDER CALF CERTIFICATION PROGRAM

- Traceability to at least 50% Red Angus genetics
- Source verified to ranch of origin
- Group age verified

*No enrollment fee, just the cost of your program tag choice.*

**GENETICS**  
**AGE**  
**SOURCE**

### ALLIED ACCESS

- Source verified to ranch of origin
- Group age verified

*No enrollment fee, just the cost of your program tag choice.*

**AGE**  
**SOURCE**

The Red Angus Feeder Calf Certification Program is the first step in differentiating your cattle to buyers, feedlots and packers.

Experience industry-leading return on investment for just the cost of an ear tag – with no enrollment fees.

The Red Angus Association of America marketing team offers assistance to Red Angus bull customers at no charge.

***We were truly honored and humbled to be selected as the 2023 Red Angus Association of America's Breeder of the Year.***

*It all begins with the cow ...*

*At Twedt Red Angus, we believe that in order to make our customers successful and more profitable, we need to manage our cow herd in a strict manner. We cull extensively each year for the practical traits that affect your bottom line such as disposition, soundness, udder quality, fertility and performance. We have used the cows pictured on these pages through embryo transfer work to help us move towards our goals. You, as the customer, can buy with confidence knowing that these bulls are backed by cows that have been held to a higher standard.*

3077 has been a standout bull since he was a baby. He is massive in all aspects. Big boned, deep ribbed and dark cherry red. He is a direct son of STRA Tina 662 who has become a top cow in not only our program but the breed. She has raised top sons like STRA Legend 022 and STRA Sargent 2019. Legend has turned into a top sire for Cutting Edge Ranch. STRA Sargent 2019 was the high seller last year in our 2023 production sale to Select Sires. If you want to add growth to your calves, take a good look at the Tina Admiral Sons. They are a powerful set.

STRA Tina 662, Dam

STRA Sargent 2019, Maternal Brother

Lot 2

STRA Admiral 0150, sire

3089 is another Tina Admiral son that is lights out. We are not sure which one of these sons is the best. We will let you decide that. This bull moves out extremely well and when you get behind him, he really shows that power. He might be the most powerful one in the group. These Tina Admiral sons are the real deal if you are looking to improve some performance in your cow herd. We feel they have real herd bull potential.

3052 is another Tina son that we are super high on. He has the herd bull look. You are just naturally attracted to him in the pen. He still has the growth that the Admiral sons have but also has the calving ease to go along with. Combining Blue Print and Tina we feel could make some super females. This is one we are really excited about and can't wait to see where he ends up.

3020 is a powerhouse Blue Print son. He has a ton of depth of rib and mass. His dam, Rainbow 417c is one of our top donors and is truly leaving a mark on our herd. Rainbow was one of our picks of the legendary dispersion in Canada for \$25,000 and she has not disappointed. Her daughters are being stamped with perfect feet and udders. If you stop by to see the bulls make sure you ask to see this impressive cow.

RED U-2 Rainbow 417C, Dam

3035 is a very powerful Blue Print son. He has the look to make some incredible females. If you are looking for a Blue Print son with some extra frame, this is your guy. He is super clean fronted and struts around the pen with a cocky attitude. We flushed 514 to Blue Print to make females and we got 4 powerful bulls instead. They did not disappoint. 514 is a beautiful Roosevelt daughter that is a maternal sister to Relentless's dam. These Cherabel daughters have been some of the most productive cows in our program.

3013 is the first of the Drifter sons. Drifter is a bull that we purchased as a calving ease option and female maker. We lost him way too early and sons will be very limited going forward. We feel these next two sons have the potential to replace him. 3013 is out of a beautiful Relentless daughter out of the Rainbow 417c donor. Relentless females are beautiful hard-working cows that flat out get the job done. They are perfect uddered cows as well. If you are looking for a calving ease sire, this guy right here is one to really consider. Stands on a perfect set of black feet.

3119 is the first of the Scout sons. We purchased Scout from Nordlund Stock Farm a couple years ago. We were impressed with a pair of flush brothers there and purchased this one. His calves have a ton of growth and seem to really work. We are excited about the future of them. 3119 is the "pet" of the pen and will usually be following you around in the bull pen.

2171 is the youngest heifer of the group but a darn good one. She is a Drifter that goes back to the Cherabel 334 donor. This girl has the potential to be a real good cow. Sells bull bred to L83 Hamlet 9H. Due 4-5-24.

**92 STRA REBELA 2130 #4663343**

BD	BW	WW	WR	Cat.	%
3/7/22	86	648	102	1A	100%

2130 is the last heifer in the sale but a very good one. She sells as a commercial because her DNA sire parentage has failed and we cannot figure out who she is out of. She is bull bred to L83 Hamlet 9H. Due 4-5-24.

**93 85 HEAD OF COMMERCIAL BRED HEIFERS**

If you have followed our sale for some time, you know we have always sold an elite group of open commercial heifer calves out of my dad's commercial herd. This year we are changing it up. My dad had knee replacement surgery so in order to eliminate some of the work to allow him to make sure his knee could heal correctly, he is selling his entire bred heifer replacement pen. This decision did not come as an easy one.

There are 87 head in total and they are one impressive group of bred heifers. 40 years of genetic selection. These heifers are all sired by some of the top bulls we have raised here at Twedt Red Angus. The heifers are bull bred to Seneca, Relentless and Blue Print sons. We calved heifers out of these bulls last year with no issues. You will put on a lot of miles before you find as good of group of heifers as these. We are selling them in 4 groups. Must take a minimum of 5 head.

Feel free to call for more information and a complete health record. 701-388-4035

- 93A: 28 HEAD OF SOLID RED HEIFERS DUE TO CALVE FEB. 25TH – MARCH 10TH.
- 93B: 39 HEAD OF SOLID RED HEIFERS DUE TO CALVE MARCH 10TH – APRIL 1ST.
- 93C: 11 HEAD OF SOLID RED HEIFERS DUE TO CALVE APRIL 1ST – MAY 15TH.
- 93D: 7 HEAD OF RED BALDIE PURCHASED HEIFERS DUE FEB 25TH – MAY 15TH.

**94 50 HEAD COMMERCIAL BRED HEIFERS**

These heifers are consigned by Logan Harding. This is an outstanding group of bred heifers. Logan has been putting an outstanding herd together with buying top genetics from many reputable breeders. You can buy with confidence that you're getting a good group of bred heifers managed right.

For more information on these heifers, contact Logan at 701-650-8817.

- 94A: 35 HEAD OF SOLID RED HEIFERS. AI BRED TO RREDS BLUE PRINT DUE FEB. 21ST.
- 94B: 15 HEAD OF SOLID RED BRED HEIFERS. DUE IN MARCH.

# Red Angus Guide to EPDS and Indexes

**ProS...** Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

**HB.....** HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

**GM.....** GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

**CED.....** Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

**BW.....** Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

**WW.....** Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

**YW.....** Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

**ADG.....** Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

**DMI.....** Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

**MILK.....** Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

**ME.....** Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

**HPG.....** Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

**CEM.....** Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

**STAY.....** Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

**MARB.....** Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

**YG.....** Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

**CW.....** Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

**REA.....** Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

**FAT.....** Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)
